

In-Wall Power Solution and Multi-Directional Speaker Mount for Sonos Play: 1, WIP

Mounts between studs to any desired location. PN: C7HSA-W-WIP-XX, White / C7HSA-B-WIP-XX, Black

Utilizing the Power Jumper IC[™] in-wall interconnect and the Speedport[™] SC Multi-Direction Speaker Mount, this is the perfect solution when installing Sonos[®] Play:1 wireless speakers.

The mounting solution is compatible with any 1/4-20 mounted speaker and will tighten both into the speaker and into the Speedport[™] when fastened.

Speakers can be adjusted on three difference axes for optimal sound performance.

Available in Black or White

For new construction projects, add on our metal **Speedport™ New Construction Bracket**. Simply fasten to a stud and once the

drywall has been laid, the bracket allows installers to use a rotozip opening to ensure proper size and placement of the hole.

Conforms to STD 514D and Certified CSA STD 22.2 No. 42.1-00 Electrical Rating: 125 VAC, 15 AMPS, 60 Hz Meets UL 817 & CSA#22.2#21 Interconnect meets UL 2256, 2459 Meets NEC 2014 Article 400.7 (A)(11) Patented with multiple patents pending.
